Education

Aug 2019 - Apr 2023

McGill University, Bachelor of Science

Montreal, Canada

McGill University

Honours Computer Science and Mathematics. 3.5 / 4.00 GPA

Professional Experience

Sep 2021 - Dec 2021

McGill help desk tutor

Montreal, Quebec

Teaching students functional programming, low-level programming, data structures,

and algorithms. Teaching is done both in person and online

Sep 2020 - Aug 2021

Student Researcher

Online New York University

Working in the Computer-Human Intelligence Lab. creating products and tools using

HTML, CSS, Javascript, Django, SQL, and basic ML in order to help users find

healthier food alternatives from Amazon.

My job was to build an app, using Django backend and the front end and test it to find

out what worked for users.

Sep 2020 - May 2021

Montreal, Canada

Software Engineering Intern

Loevs Dietz Foundation Canada

Developing a website and tools, using **Django**, **HTML**, **CSS**, **JavaScript**, **SQL** to gather patient data and safely store it so the ML team can use it for analysis. Built website (front/backend), built scraper to get data (selenium), built storage system for data

(Django + SQL), UI / UX work for patient experience.

Projects

Sep 2021

freeseatfinder.com

Django, HTML, CSS, JAVASCRIPT

Open Source project: free waitlist system that helps students find a spot solves

McGill's schedule system problem. ~30 unique students, planning to expand and serve

six other universities.

Oct 2020

McGill Al HACKS, Winner of Best Overall Hack

Python, Bash, HTML, CSS

Helped create an MTBI (Myers Briggs Type Indicator personality test) classifier from

Twitter, that used XGBoost Classifiers and the Twitter API.

Mar 2020

Compete McGill

OCaml, HTML, CSS

8th Place.

Algorithmic programming competitions in OCaml and Python. As well as written

algorithms exam.

Interests

Computer Science Task Force

Member: help build software to help McGill students: planning on giving workshops on basic CS concepts such as git

ColorStack volunteering

Helped manage and support an event aimed at supporting students of color in Computer Science (StackedUpSummit)

Poker

Member of the McGill Poker team: competing in Intercollegiate Poker League
